

## Carefree independent Our Guards are always close

**X-Guard functions as your personal safety alarm. Just in case you are unexpectedly faced with an emergency situation, X-Guard will automatically send appropriate assistance to your location. When threatened by aggression or violence, you can press the installed alarm button and call for help that way.**

Wherever you take your phone, you are protected. In case you happen to have a fall that leaves you unable to move, X-Guard will automatically call for help. Should you feel unsafe for any reason, X-Guard can be used to send appropriate assistance.

X-Guard can be used indoors as well as outdoors.
