

Bundle calculator

Always **pay** only for what you use

X-Guard aims to provide protection to everybody in the Netherlands, as inexpensively as possible. Complete protection is possible from €0,09 per hour!

You will pay for your security in advance by purchasing hourly bundles. This way you can be sure you will only pay for what you'll actually use. At the moment we are developing an online calculator to conveniently calculate what your expenses for complete X-Guard protection would be.

For now we advise contacting us by phone to get a personal price indication.
